What They're Saying....

"Great Burger for a great price! I was especially thrilled about the soldier box, and our little girl loved coloring the picture to [be] mailed to one overseas! Great family atmosphere and the restaurant itself was awesome! Will be visiting Grumps again!"

"My son and I went to visit Tarleton University and asked a friend where a good place to eat was. She suggested Grumps. We went in and ordered chips and queso and burgers. While we waited on our burgers we ate the chips and queso. The chips are homemade and they are not corn chips, they are made from potatoes and they were awesome. The burgers were amazing. The atmosphere is laid back and makes you feel at home. I can't wait to go back next month when we visit again."

On another note, we are continuing to expand at our Granbury location. Stop by any time to see the changes! Soon we will be able to host "so many activities!"
